ERNARD SHAW'S latest experiment of teaching a flower-girl to talk like a duchess in six months was watched with amusement last night at the Park Theatre, and to give it interest—the unusual interest assolated with one of the few really fine actresses in the world-Mrs. Patrick Campbell served as an object lesson in phonetics. And still there are people going about saying there's nothing new under the sun! What about the

Any play that can bring Mrs. Campbell back to us has a great deal in its favor, and in bringing "Pygmation" here Manager George Tyler of the Liebler Company proves again that his sympathies are not with the commonplace productions of the theatre. It takes another act to show he has come to feel the need of her, and you are left to surmise that she may hrow slippers at him as his wife for the rest of her life.

So much for Shaw's romance! If the play lagged somewhat toward the end the acting grew steadily better. Mrs. Campbell was delight-ful in her behavior at the reception. With her majestic air and her dutiful manner of speech while seeking to impress the commonplace guests, she impress the commonpiace guests, see made this scene the joy of the performance. It was not her fault that Eliza scemed quite impossible in the last act. Here Shaw was to blame. Mrs. Campbell made the most of the situation by looking so beautiful that the average least was satisfied. One situation by looking so beautiful that the eye at least was satisfied. One gould scarcely believe her to be the tame woman who had cried "Not Moody likely!" This so-called san-guinary element of Eliza's conversa-tion is said to have shocked staid old London to its foundations. Here, needless to say, it raised a shout of laughter.

laughter.

The rich humor of Eliza's father was capitally expressed by Edmund Gurney. Philip Merivale suggested Shaw himself in his laupatient manner of throwing himself into a chair over an argument, and at the same time gave an altogether excellent characterization in the role of the professor. There can be little doubt that Henry Higgins is only another name for Bernard Shaw.
